safe-t

NFB SAFE-T II ROTARY STEERING

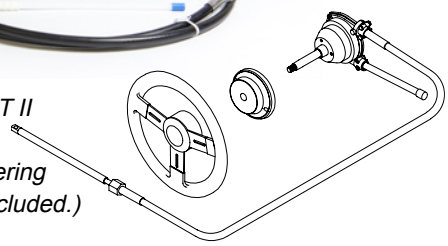
APPLICATIONS

NFB Safe-T II single-cable systems are suitable for most single-station boats with a single non-power-assisted outboard engine up to V-4 and minimal engine flutter or steering instability. Safe-T II accepts wheels up to 16" diameter. (NFB Safe-T II is available in single cable configuration only). Replaces nearly all standard Safe-T® steering without dash modifications.

FEATURES

- Patented No FeedBack™ Steering mechanism
- Quick response of 3 turns lock-to-lock
- Minimal clutch free play
- Standard 3/4" round tapered steering shaft
- Stainless steel cable output ends
- Fast, easy installation: uses SeaStar Solutions Quick Connect (QC) cable
- Kits include: cable, helm, 90° bezel and hardware
- Meets A.B.Y.C. standards
- Meets N.M.M.A. certification requirements

Issue Date - Nov 2014
Issue Number - ms9



NFB™ Safe-T II Single Cable System (Steering Wheel not included.)

Major OEMs use SeaStar Solutions Safe-T II, and so will your customers. It's the next generation of Safe-T, the world's #1 rotary steering system - rugged, compact, lightweight, and with SeaStar Solutions No FeedBack technology.

This ultra-smooth 3-turn system takes the work out of steering most V-4 outboard powered boats. The Safe-T II helm is a drop-in replacement for current generaton Safe-T QC with no dash modifications!
