

How does it work?

Facilitate rescue from the palm of your hand. This is the science of survival.

ResQLink Personal Locator Beacon is activated.

406 MHz Distress Message, including GPS coordinates, is sent to worldwide emergency satellite network.

Distress Message Relayed

406 message and GPS coordinates are sent to the closest local Search and Rescue organization.

Search and Rescue Dispatched

GPS coordinates and a 121.5 MHz homing signal lead rescuers to your location.

THE SCIENCE **ACR** OF SURVIVAL

Personal Locator Beacon Series

Wilderness. Adventures. Rescue.

Featuring the:

ResQLink
SERIES

PLBs Evolved.

Since 2003, ACR has been developing and building rugged and proven PLB technology and innovations that have saved countless lives.

ACR ResQLink™ 400 Multi-Terrain PLB

Professionally engineered and tested to ensure it can withstand even the harshest elements, this buoyant Personal Locator Beacon requires no subscription for use. Designed for a wide variety of environments, the ResQLink's satellite precision and military durability puts rescue in the palm of your hands.

Features include:

406 MHz & 121.5 MHz

Infrared & LED Strobe

No Subscription Required

Fast GPS Acquisition

Built-in Buoyancy

ACR ResQLink™ View Multi-Terrain PLB with Display

Building on the advanced platform of the ResQLink 400, the ResQLink View adds premium features including additional battery life and a digital display featuring live status and GPS coordinates. The ResQLink View provides more than a vision for survival, it takes you to a whole new level in rescue.

Includes all ResQLink 400 features and:

Digital Display

28* Hours Operational Life

Camo & Aqua Marine Skins Included with ResQLink View

ACR Skins

For Modern Expression. ACR Exclusive.

Included with the ResQLink View are our exclusive ACR Skins. Providing you with a customized beacon tailored to your lifestyle and preferred activities.

Find more ACR Skins at: www.ACRARTEX.com

Ocean Signal RescueME™ PLB1

World's Smallest PLB

Good things come in small packages. This was one of our key design principles with the RescueME PLB1. While small in stature, the PLB1 is a full-featured PLB including all the essential safety technology found in our classic ResQLink line. The PLB1 comes standard with a buoyancy pouch allowing it to safely accompany you on your trips over land and water.

Features include:

Ultra Small & Light weight

406 MHz & 121.5 MHz

Fast GPS Acquisition

Built-in LED Strobe

406Link™

Advanced Testing with Messaging

All our beacons function subscription free. But we do offer 406Link for our customers who wish to maximize their product experience. 406Link provides an advanced testing service with customized messaging.
