

LENCO Pro Control™ Auto

For Comfort & Control, Nothing Comes Close.

Pro Control™ sets a new standard for auto-levelling, improving boat stability by an industry-leading 74%*. That's 25%** better than the closest rival. And we haven't even mentioned the price.

*vs No System - Baseline **vs Competitors
Visit lencomarine.navico.com for more information.

AUTO FEATURES

- **Industry leading Auto-Levelling**—A game-changer for boat stability, boasting a 74% improvement* against no system, outperforming the leading interceptor brand** by 25%.
- **A more comfortable, cushioned ride**—Reduce “slams” and “thuds” with an industry-best 24% reduction of re-entry impact*.
- **Confidence offshore**—Pro Control rivals far more expensive products offshore, delivering an impressive 15% pitch reduction* in dynamic seas.
- **Faster reaction = instant control**—Improved holeshoot and response times deliver near-instant response to the helm for enhanced control.
- **Built to last**—Best-in-class 5-year warranty gives peace of mind to both boatbuilders and end users. Simple maintenance extends lifespan.

LENCO Pro Control™ Assist

The control is in your hands.

Pro Control Assist offers a manual control option, featuring a smart, sleek dial controller, designed to provide a class-leading user interface. Get all the benefits of Pro Control including holeshot assist, with CAN communication protocol and the ability to store preferred positions for your trim tabs.

ASSIST FEATURES

- **Industry-leading connectivity**—CAN based protocol comes as standard, meaning ease of system integration and installation.
- **Ease of use - precise control**—Smart, sleek intuitive dial controller, designed to provide responsive precision controls.
- **Instant access to favorite settings**—Programmable memory position recall capabilities allow access to your two preferred trim tab settings at the touch of a button.
- **Hands free holeshot**—Speed based automatic deployment of the trim tabs - engage throttle and tabs deploy to get boat on plane quicker, plus automatic retract at slower speeds with no manual operation required.
- **Built to last**—Best-in-class 5-year warranty gives peace of mind to both boatbuilders and end users. Simple maintenance extends lifespan.

Dimming Control - Day and Night Mode

Dimming control lets you control the lighting across all Mercury DTS equipment and select displays with a single button press. On both Auto and Assist models.

LENCO™ SD Pro Actuators

Engineered to offer best-in-class connectivity, precise control and an unbeatable user experience.

- Completely new CAN-based hardware
- Simplified installation
- No longer need a separate control box for auto-levelling (Pro Control Auto)
- Advanced diagnostics

New mechanical design with quiet operation

Position sensing to within 1% precision

Retrofit capabilities with Lenco 100 Series Systems— Pin to Pin length & reuses some Mounting Bracket holes

Increased load handling capability
750lbs Push, 400lbs Pull

SD Pro Actuator & Trim Tab

Make It Yours

The only actuator to enable full white label production, the SD Pro allows you to put your own stamp on things. By implementing your own logos and colouring, the SD Pro helps build your brand and deliver a more seamless user experience. Ultimately it also helps you deliver a better performing, better looking boat to your customers.
