

DELUXE ANTI-EXPOSURE COVERALL AND WORK SUIT (MS2175)

THE BEST PROTECTION AND COMFORT

Mustang Survival's MS2175 Deluxe Anti-Exposure Coverall and Flotation Work Suit is designed with Mustang's Airsoft™ foam for a lighter and more comfortable fit. Comfort Cuff™ technology creates a relaxed, comfortable fit around the wrists, and is matched by the overall relaxed and comfortable fit of the suit design. Featuring two chest pockets, large front cargo pockets and an inflatable head pillow for additional in-water support and buoyancy, this suit blends functionality, and features to meet the demands of a wide-range of professional and industrial uses.

Mustang Survival flotation suits are designed to protect the wearer from foul weather, and use closed-cell foam to offer flotation and hypothermia protection in the event of water immersion. Tug-Tite® technology and Velcro™ wrist and ankle closures improve fit and limit water flushing if immersed, SOLAS reflective tape enhances visibility and an inflatable head support pillow.
