

JON BUOY DANBUOY

The inflatable Jon Buoy Danbuoy is stylish, compact and weighs only 3.9kg.

It can be mounted on the pushpit and is easily deployed in an emergency. In the event of a man overboard, simply unclip the unit from its mounting bracket and throw; the Danbuoy then automatically inflates. It replaces the traditional Danbuoy and is also fitted with a light and whistle.

Key features

- Compact
- Quick and easy to use
- Highly visible
- Easily replaced
- Lightweight
